## ATTENTION HUNTERS, SHOOTERS, COLLECTORS!

### YOU COULD LOSE YOUR SHOOTING PRIVILEGES

...And your firearms could be taken away!

### SOME POINTS FROM GUN CONTROL BILL C-17 (Introduced May 1991)

1. Future firearms laws will be changed through "regulations" and order-in-council, NOT through Parliament.
2. The term "GENUINE GUN-COLLECTOR" will be defined and regulated, possibly with fees and permits. All collectors would have to submit to periodic inspections.
3. Local Registrars may require applicants to submit "further information" when issuing F.A.C.'s. This may lead to unnecessary delays.
4. F.A.C. fees to go up from \$10 to \$50 and future increases will be set by new "regulations".
5. All centerfire magazines which hold over 5 cartridges and will fit into a semi-auto rifle, and all your handgun magazines over 10 cartridges, become "prohibited weapons" - unless you are an ACTIVE competitor and can get permission to keep them. Centerfire handgun magazines over 5 capacity also prohibited, if they fit into a rifle. Modifications to existing firearms may have to be made.
6. New safe storage regulations to be set again by government officials. Criminal code violation of regulations punishable by up to two years in prison.

There is no time to lose. The Bill has been in Committee all summer. This is your last chance to voice your opinion on this *proposed* legislation.

To get more information, phone your M.P. to request your free copy of Bill C-17 (Phone House of Commons in Ottawa (613) 992-4793 to get M.P.'s phone number). Tell your M.P. what *you* think. Send a letter, fax, or visit your M.P. Organize your points, be polite, stick to the facts, and ask for crime control and *good* gun control.

SEND a copy of your letter to: The Hon. Don Mazankowski

Deputy Prime Minister

House of Commons

Ottawa, Ontario K1A 0A6

Telephone: (613) 957-5657 Fax: (613) 957-5652

**ACT NOW BECAUSE** Bill C-17 could be tabled in Parliament SOON!

**Honest firearms owners deserve laws that make sense for everyone.**

## Famous Favourites with Canadian Sportsmen

**Lee Enfield No. 4 Mark II Rifle, Cal. .303 BRIT**

U.K. manufacture. These rifles are complete with No. 9 Mk I Blade Bayonet and Scabbard. The No. 4 Mark II was developed at the end of WWII. It differed from the earlier Enfield Marks by having its trigger pinned to the receiver rather than to the trigger guard. Its short bolt action and 10-rd. detachable magazine make it a fast-handling weapon with real firepower – and make it an easy-handling sporting rifle. Last model produced of this famous line, these rifles are still in extensive use and held as reserve weapons by the U.K. 112.8cm (44.4") overall; 64cm (25.2") barrel.

## New Siberian Survivor - Draganov Model

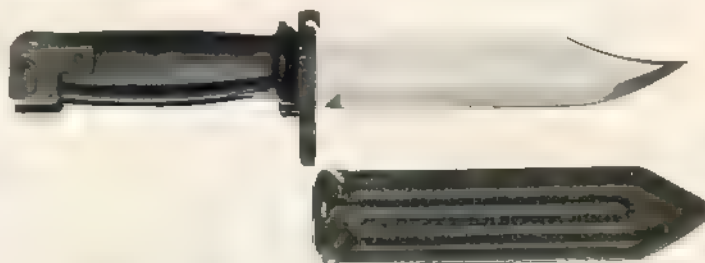

### Bayonet & Scabbard

Originally designed for the Soviet AKM, these short, stocky bayonets make ideal knives for the Canadian hunter or outdoorsman. The 150mm (6") Bowie-type blade of hardened steel carries a razor sharp hollow-ground edge, right up the curve to the tapered point. Heavy plastic pommel for a comfortable grip, with short leather lanyard for additional security. A lug on the black metal scabbard fits a hole in the blade to make an effective wire cutter. A leather strap secures the knife in its scabbard. 325mm (13") overall length.

Smooth back on blade. Tan plastic handle with metal end for press and stud and lanyard. Black rubber grip on steel scabbard. Leather loop on scabbard fastens to belt.

## MORE HECKLER + KOCH ITEMS

### Pistols

Founded in 1949, Heckler & Koch are leaders in high-technology weapons, and are among the finest gun designers and manufacturers in Europe. A large part of HK's splendid reputation is due to the exclusive DRLB (delayed roller-locked bolt) system - the same technology that gives their HK hunting and sporting rifles their unexcelled reliability and precision.

### PSG Series Semi-Auto Pistols

Originally designed for West German Police, used also by U.S. special forces. Fast and easy; cocks with lever on left or with trigger in double-action mode; protruding pin indicates gun is ready to fire, thumb safety; polygonal profile barrel - used also in other pistols - provides increased velocity, ease of handling, and longer barrel life. Combat-style sights make target alignment fast and easy. 102mm (4") barrel. Target Models have trigger stop, with adjustable trigger and rear sight. All models come with spare magazine

### Models Available:

No. 67P9ST9	P9S Target, 9mm, 9 rds	<b>\$1,179<sup>95</sup></b>

### P7K3 Semi-Auto Pistol, Cal. 7 65

Its design and operation are largely identical to the P7M8 and P7M13 pistols. Has an inertia bolt without gas piston. Conversion kits are available which permit the change of calibre by simple barrel and magazine exchange. When changing to calibre .22LR, apart from the barrel and the magazine, the slide must also be exchanged. This 22 LR calibre slide is specially designed for intensive training fire of inexpensive rimfire cartridges. The barrel is provided with a linear floating chamber to increase safe functioning. Complete identical handling from left and right, therefore, suitable for both left and right handed shooters. Ideal for sport, self-defence or practice shooting.

### Model B Super, Cal. 9mm Parabellum

Similar to the model BS above. Field stripping is extremely simple. Flip a lever and the slide comes forward right off the gun. Sights are taller and have a unique two dot system. Just line-up the dot on the rear sight with the dot on the front sight and you're on target. The same safeties appear on this gun as on the BS but a live round indicator has been included on the Super as an added safety. Hammer spur, back strap and plastic grips are all checkered. 8-rd. magazine, 130mm (5.1") barrel.
